As a Software Engineering student with a strong foundation in both software and hardware, I've been passionate about technology since I was a child. I have hands-on experience with Full-stack programming in languages and tools like , React, Python, HTML, CSS, JavaScript, and APIs development. I am constantly expanding my skills set to stay ahead in this fast-evolving field.

My goal is to blend my academic knowledge with real-world experience to design and develop innovative, scalable solutions. I thrive on collaborating with others, solving complex challenges, and contributing to meaningful projects that make a real impact in the tech industry.

Skills & abilites

Technical Skills:

- Python, JavaScript, React.js, SQL, Databases, APIs, Tailwind CSS, HTML, Git/GitHub

IT Support:

- Windows/Linux Troubleshooting, Virtualization (VMs), GLPI, Networking, Microsoft 365

Soft Skills:

- Problem Solving, Analytical Thinking, Communication, Teamwork, Adaptability, Multitask

Languages

- Portuguese (Native)
- Spanish (Fluent)
- English (Proficiency)

Projects

Home IT Support Lab Project

- Simulated help desk and system administration using virtual machines
- Resolved 15+ technical issues (networking, OS troubleshooting)
- Used GLPI for ticketing; documented resolutions for portfolio

Portifolio

- Developed and deployed a responsive portfolio landing page to showcase my web development skills.
- Stack: React.js, JavaScript, HTML, Tailwind CSS, Vite, GitHub

User registration manager

- Developed a user registration system for an association, integrating the frontend interface with a database through an API to streamline the registration process.
- Stack: GIT, Python, RESTful API, SQL, JWT Authentication, Object Oriented Programming

Education

- Bachelor's in Software Engineering

Feb 2024 - Present

Certifications

- AZ-900: Microsoft Azure Fundamentals - Nov 2024
- IT Help Desk for Beginners - Feb 2024
- Troubleshooting IT Remote Administration - Feb 2024
- GitHub Career Essentials (Professional Certificate) - Feb 2025
- Data Structures in Python - Jan 2025
