As a Software Engineering student with a strong foundation in both software and hardware, I've been passionate about technology since I was a child. I have hands-on experience with Full- stack programming in languages and tools like , React, Python, HTML, CSS, JavaScript, and APIs development. I am constantly expanding my skills set to stay ahead in this fast-evolving field.

My goal is to blend my academic knowledge with real-world experience to design and develop innovative, scalable solutions. I thrive on collaborating with others, solving complex challenges, and contributing to meaningful projects that make a real impact in the tech industry.
